Reaction Paper 2 Instructions

1. Pick one of the following articles: Vohs, Psychological consequences of Money; Yap, et al, Ergonomics of Dishonesty: Incidental Postures; or Bargh, Priming Effects of Television Food Advertising.

2. Write a 3-5 paper that includes the following:
   • Summary of Background, Rationale, Hypotheses tested, Methods used
   • Summary of Results: were specific hypotheses supported
   • Conclusions made by authors
   • Assessment of any methodological problems that could undermine those conclusions
   • Implications of findings for the real-world
   • How findings fit in with System 1 and System 2
