Reaction Paper 3 Instructions.

1. Pick one journal article from any class from 3/5 through 3/14.

Please write a paper, 2 page minimum, that includes the following:

2. A summary of the Background and Hypotheses tested, the Methods used, and Results of the article.
3. The conclusions made by the article, and discussion of possible methodological problems that could undermine those conclusions.
4. Discussion of how the findings of the articles fit in with the functions and consequences of System1 and System 2.
5. The implications of the findings for the real world.

DUE: March 21.
