Great work on this, Bill! Thanks for your leadership on this event. I was also delighted to see the nice turn-out of faculty and students from Linn State for this lecture, and the outstanding discussions that followed.

Subject: Partick Moore Visit to MU

All:

I am remiss in not thanking all of you again for your assistance with Dr. Moore's visit and lecture Tuesday evening. We had almost 80 people in attendance (and with setting for 80!) which was excellent. Thanks to the student branch society officers for publicity as it appeared that many in the audience were engineering students. And thanks to the support of the staff in the Office of Research (Gloria) and the MURR (Margee) in assisting with logistics.

I believe that we left Dr. Moore and his associates with an excellent image of MU.

Bill
